Work the **G** graveyard shift, stay up all night **G7** long

Work the **C** graveyard shift, stay up all night **G** long

Wake **D/F#** up someday, find your good gal **G** gone

Said **G** if you don't treat your baby **G7** right

Said **C** if you don't treat your baby **G** right

She'll **D/F#** come see me, some lonely **G** night

When the **G** sun goes down and the moon is gone

That's when I **G** come around, don't you think I won't

On the **C** graveyard shift, stay up all night **G** long

Wake **D/F#** up someday and find your good gal **G** gone

~~Work the **G** graveyard shift, stay up all night **G7** long~~

~~Work the **C** graveyard shift, stay up all night **G** long~~

~~Wake **D/F#** up someday, find your good gal **G** gone~~

I drive a **G** Cadillac, it rides just like a **G7** dream

Drive a **C** Cadillac, it rides just like a **G** dream

All the **D/F#** pretty gals, they want to ride with **G** me

'Cause **G** I got what all the women **G7** want

Said **C** I got what all the women **G** want

I never **D/F#** say I do when I really **G** don't

When the **G** sun goes down and the moon is gone

That's when I **G** come around, don't you think I won't

On the **C** graveyard shift, stay up all night **G** long

Wake **D/F#** up someday and find your good gal **G** gone
